A trip to Jamestown has much to at-A trip to Jamestown has much to attract the tourist aside from the fair itself. Hardly less enjoyable than the infspection of the interesting exhibits, the naval displays and special celebrations are the numerous side trips the visitors can take into the neighboring country, "the cradle of American institutions." Among these places with historical associations are Yorktown, Jamestown Island, Portsmouth, and the battlefields of the civil war. Tourists going via the Capital may go by water via the Norfolk and Washington boats either by day or night. Splendidly equipped steamers of this line sail every day at 8 a. m. and 6:30 p. m., the former giving a daylight trip of about twelve hours' duration, the latter completing the sail over night. These boats touch at Old Point Comfort and land passengers directly at the exposition pier. The department emphasizes the use of lee by the producer, and in reply to the company has treated its employes worse than the Western Union, being purposely protected from publicity by the union in the past because the Postal had not antagonized the union.

President Small's statement is as follows:

"I appreciate that, in view of the statements from New York and Washington to the effect that the grievances of the telegraphers employed by the Western Union Telegraph Company had been satisfactorily adjusted, the general public must regard the strike in San Francisco as unusual and, perhaps, unwarranted.

Mindful of the present inadequate fafor the reason that President Clowry's cilities of the Health Department for statement inspires no confidence in the coping with the milk situation, the com-

denied by Judge Wood. It is asserted that Orchard's story was not corroborated in many of its important features. The counsel for the defense is busily engaged today in arranging its attack upon the Orchard testimony.

Darow seems confident today, and about the headquarters of the Haywood contingent it was said that they now expect a verdict-of not guilty. They assert that no conspiracy has been shown.

However, they have little to say in regard to the documentary evidence introduced by the State.

United States.

"In San Francisco there exists grievances which were not acted upon by Mr. Neill, and to which President Clowry makes no reference. The salaries paid in San Francisco are no higher now than before the recent disaster. The cost of living has increased to such an extent that, in order to pay living expenses, a married man must work time and a half every day in the week, and a single man can barely pay living expenses. There are cases in San Francisco where the salary of women telegraphers is as low as \$40 per month- and they did not receive the promised increase of 10 per cent, either.
